## **Classes**

Wine classes have changed from previous years. Separate classes have been established for Original Source wines and Wine Kit wines. Please pay attention to the current classes to be sure you enter your wine properly.

Original Source Wines containing more than 75% of a single varietal should be entered as that varietal.

Wine Kit wines shall be submitted per the manufacturer's definition.

All other Original Source wines should be entered as blends. List the major ingredient /grape variety on entry form.

Any grape wine that includes fruit should be entered in the fruit blend class for Original Source wine or Wine Kit wine, as appropriate.

Wines entered as "dry" should contain not more than 1% residual sugar (sp.gr. 1.004). Semi-sweet wines may contain 1% to 3% residual sugar (sp.gr. 1.005 to 1.012).

Wines entered as "sweet" may contain 3.1% to 6% residual sugar (sp.gr. 1.013 to 1.024).

Some fortified wines may fall outside these guidelines. Some fortified and aperitif wines may contain very high % residual sugar.

These are suggested guidelines, but you decide which sweetness category fits your wine. Wines will be combined as necessary to provide an adequate number of entrants for each judged class. In all cases the wines will be judged according to the class in which they are originally entered.
